Calathea is a genus of plants belonging to the family Marantaceae. There are several dozen species in this genus. Native to the tropical Americas, many of the species are popular as pot plants due to their decorative leaves and, in some species, colorful inflorescences. They are commonly called calatheas or (like their relatives) prayer plants. There are several cultivars, such as 'Silver Plate'.

A toast is a ritual in which a drink is taken as an expression of honor or goodwill. The term may be applied to the person or thing so honored, the drink taken, or the verbal expression accompanying the drink. Thus, a person could be "the toast of the evening", for whom someone "proposes a toast" to congratulate and for whom a third person "toasts" in agreement.

Reader's Comments (0)Author's Note: 'Hermione and the Fairy Briedel' got a number of favourable comments and even spawned a prequel. I thus decided I wanted to write a sequel. I'd planned (and still do) 'Hermione and the Elven Princess' which involved, among other things, our lovely and now very kinky witch being trained as a pony girl.
