Social history, often called the new social history, is a field of history that looks at the lived experience of the past. In its "golden age" it was a major growth field in the 1960s and 1970s among scholars, and still is well represented in history departments in Britain, Canada, France, Germany, and the United States.

The U.S. social welfare structure has been shaped both by long standing traditions and by changing economic and social conditions. In its early history, the United States was an expanding country with a vast frontier and a predominantly agricultural economy. Up to 1870, more than half the Nation's adult workers were farmers.

This is a history of the footnote, the bibliography, the revised edition, the questionnaire, dossier, and book review, the index (and the Index), and alphabetical order (Bayle wrote his dictionary in alphabetical order). Philosophically, Burke's book is less a history of knowledge than a history of disciplines taking control of knowledge, the disciplinary pursuit of knowledge for the sake of control.

Social history provided mere light relief, the tail-piece for proper history, just enough to convince the reader that the subject matter was human after all. Fashions have now changed. Social history occupies the centre of the historical stage, thanks to historians like Lawrence Stone, Le Roy Ladurie and Keith Thomas.
