The pattern of disharmony between the liver and stomach is widely observed in patients with digestive diseases, such as gastroesophageal reflux disease, chronic gastritis, and functional dyspepsia, etc.

Liver-stomach disharmony pattern: theoretical basis

The biological basis of personality is the collection of brain systems and mechanisms that underlie human personality. Human neurobiology, especially as it relates to complex traits and behaviors, is not well understood, but research into the neuroanatomical and functional underpinnings of personality are an active field of research. Animal models of behavior, molecular biology, and brain ...
