It was sort of like buying drugs: to get this book you had to go into an alley, and pay cash, or go back behind a legit music store, where the clerk furtively snuck you a copy; or grab it out of the trunk of some guy's car. Maybe you had a teacher who sold you a copy from a stash he kept hidden ...

Video game music is the soundtrack that accompanies video games. Early video game music was once limited to simple melodies of early sound synthesizer technology. These limitations inspired the style of music known as chiptunes, which combines simple melodic styles with more complex patterns or traditional music styles, and became the most popular sound of the first video games.
