DCF model tutorial with free Excel | Business-valuation.net

Learn how to value a business using different valuation methods, such as multiples, earnings ratios, and discounted cash-flow analysis.

Finance Foundations: Business Valuation - lynda.com

Business analysis is a research discipline of identifying business needs and determining solutions to business problems. Solutions often include a software-systems development component, but may also consist of process improvement, organizational change or strategic planning and policy development.

Business analysis - Wikipedia

In economics, valuation using multiples is a process that consists of: identifying comparable assets (the peer group) and obtaining market values for these assets.; converting these market values into standardized values relative to a key statistic, since the absolute prices cannot be compared.
