Language Typology and Syntactic Description: Volume 2, Complex Constructions by Timothy Shopen. Read online, or download in secure PDF format

Language Typology and Syntactic Description: Volume 2

This article provides a sampling of just three areas of syntactic typology. The first deals with work carried out on relative clauses, one of the most thoroughly examined topics in typology, and one for which many outstanding overviews already exist. The second example covers the noun-phrase conjunction. The third example is an overview of research on content questions.

Language: Morphological and Syntactic Typology Study 3. Morphological and Syntactic Typology In this section, two main domains of typology will be studied. Morphological: the study of the formal and semantic composition of individual words. And, Syntactic: the relation of the words in a sentence. It is believed that the relationship
