I was distracted when I turned off my mower (Husqvarna 2754GLS) today. I had the mower engaged (was actively mowing) and I switched off the power using the ignition key. In other words, I forgot to disengage the mower blades before I shut off the mower. Now the engine won't turn over at all. Not even when it's hooked up to my car's battery.

Husq turned off while mowing - now it won't start
