In sociolinguistics, a Tâ€V distinction (from the Latin pronouns tu and vos) is a contrast, within one language, between various forms of addressing one's conversation partner or partners that are specialized for varying levels of politeness, social distance, courtesy, familiarity, age or insult toward the addressee. Many languages lack this type of distinction, instead relying on more ...

The history of Canada covers the period from the arrival of Paleo-Indians thousands of years ago to the present day. Prior to European colonization, the lands encompassing present-day Canada were inhabited for millennia by Indigenous peoples, with distinct trade networks, spiritual beliefs, and styles of social organization. Some of these older civilizations had long faded by the time of the ...

Hi there, The use of pronouns, especially they, can be problematic for learners whose native language has different forms for they (a masculine form, a feminine form, a neutral form) or for languages who do not always require a subject pronoun for a verb. In the case of your Brazilian learners, whose first language will be Portuguese, there is a bit of both things going on.
