quality assurance problem solving pdf

Quality assurance (QA) is a way of preventing mistakes and defects in manufactured products and avoiding problems when delivering solutions or services to customers; which ISO 9000 defines as "part of quality management focused on providing confidence that quality requirements will be fulfilled". This defect prevention in quality assurance differs subtly from defect detection and rejection in ...

- Problem solving is vital in all aspects of business from people problems to technical problems and from short-term to long-term problems. And problem-solving involves two completely different, possibly conflicting thought processes: creativity and decision making. The first part, the creativity, is to generate options, possible solutions, and then the second part, the decision making is to ...
