In the United States and Canada, redlining is the systematic denial of various services to residents of specific, often racially associated, neighborhoods or communities, either directly or through the selective raising of prices. While the best known examples of redlining have involved denial of financial services such as banking or insurance, other services such as health care or even ...

Red tide is a common name for algal blooms, which are large concentrations of aquatic microorganisms, such as protozoans and unicellular algae (e.g. dinoflagellates and diatoms). The upwelling of nutrients from the sea floor, often following massive storms, provides for the algae and triggers bloom events. Harmful algal blooms can occur worldwide, and natural cycles can vary regionally.
