It is the responsibility of New York State Office of Information Technology Services (ITS) to provide centralized IT services to the State and its governmental entities with the awareness that our citizens are reliant on those services. At ITS, we set statewide technology policy for all state government agencies and monitor all large technology expenditures in the state, seeking efficiencies ...

New York State Office of Information Technology Services

Security is freedom from, or resilience against, potential harm (or other unwanted coercive change) caused by others. Beneficiaries (technically referents) of security may be of persons and social groups, objects and institutions, ecosystems or any other entity or phenomenon vulnerable to unwanted change by its environment.
