The twentieth century was the bloodiest era in history. World War I killed between 9 million and 10 million people, more if the influenza pandemic of 1918-19 is seen as a consequence of the war. Another 59 million died in World War II. And those conflicts were only two of the more deadly ones in the last hundred years.

The war of information resembles the war of attrition. However, there are two key differences: first, in a war of attrition, both players bear costs as long as the game continues while in a war of information only one player incurs a cost at each moment. Second, the resources spent during a war of information generate a pay-off relevant signal.
