Video game packaging refers to the physical storage of the contents of a PC or console game, both for safekeeping and shop display. In the past, a number of materials and packaging designs were used, mostly paperboard or plastic. Today, most console and PC games are shipped in jewel cases or keep cases, with little differences between them. Aside from the actual game, many items may be included ...

An infobox is a panel, usually in the top right of an article, next to the lead section (in the desktop version of Wikipedia), or at the end of the lead section of an article (in the mobile version), that summarizes key features of the page's subject. Infoboxes may also include an image, a map, or both.. Wikipedia's infoboxes almost always use the template software feature.
